

VertKleen WaterSafe60

POTABLE-SAFE ACID-FREE WATER TREATMENT · NSF 60

NSF/ANSI 60 · Potable Safe
Replaces Harsh Mineral Acids
Triple-Zero HMIS · Non-Fuming
Non-Corrosive · No Containment
Dissolves Scale 15% Faster
100% Biodegradable · FDA-GRAS

DIRECTIONS FOR USE

Pipe Cleaning & Descaling: 175–500 gal per 1,000 gal (min 15%); dwell 30+ min, flush to normal pH.

Well Drilling Aid: 50–150 gal per 1,000 gal; replace a portion of drilling water.

Well Rehabilitation: Up to 20 gal per 1,000 gal; inject, dwell 30 min, then purge.

Corrosion, Scale & pH: Meter 2–10 mg/L (up to 80 mg/L on hard water).

CAUTION: Commercial/Industrial use. Due to low pH, do not use on cast iron, aluminum, brass, copper, polypropylene or schedule-80 PVC. Safety glasses suggested. Keep out of reach of children.
